24 September 2024

Create the following figure using **ggplot2** package:

Hints

1. You need the following packages:

```
1 library(tidyverse)
2 library(dslabs)
```

2. You can get the dataset from **dslabs** package like this:

```
1 gapminder <- dslabs::gapminder
```

3. Use **filter()** function to specify years.
